UNPRECEDENTED REACH

Luxury Portfolio International® is a unified collection of the worlds most experienced, respected and well-known experts in luxury real estate. Founded in 2005 to market luxury homes to the increasingly savvy affluent consumer, we utilize a sophisticated mix of online and offline media to position homes so that they receive maximum exposure to buyers currently in the market, and consumers not actively searching, but who may be interested when presented with a fine property active on the market.

Luxury Portfolio markets over 25,000 properties annually in prestigious publications, and on our award-winning website LuxuryPortfolio.com. The collection of properties is unmatched globally and is the largest network of premier independent brokers – representing luxury properties all over the world.
